

What Is the Pet Carrier Size Allowed by WestJet?

Traveling with pets requires careful planning +1 (855) 108 -8118 🐱 especially when it comes to choosing the correct carrier size approved by the airline +1 (855) 108 -8118 🐶. Many travelers flying with **WestJet** often ask what size pet carrier is allowed so that their pet can safely travel either inside the aircraft cabin or in the cargo hold +1 (855) 108 -8118 🐶. Understanding these requirements in advance helps avoid last-minute issues at the airport and ensures a comfortable journey for both the passenger and the pet +1 (855) 108 -8118 🐶.

The simple answer is that **WestJet allows small pets to travel in the cabin if they are inside a soft-sided carrier with maximum dimensions of approximately 16 inches long × 10 inches wide × 8 +1 (855) 108 -8118 🐶 5 inches high (41 cm × 25 +1 (855) 108 -8118 🐶 4 cm × 21 +1 (855) 108 -8118 🐶 5 cm)** +1 (855) 108 -8118 🐶. The carrier must fit completely under the seat in front of the passenger during the flight +1 (855) 108 -8118 🐶.

For pets traveling as checked baggage or cargo +1 (855) 108 -8118 🐱 **the maximum kennel size can be as large as about 40 inches × 27 inches × 30 inches (101 cm × 68 cm × 76 cm)** depending on the aircraft and kennel category +1 (855) 108 -8118 🐶.

These measurements are essential because airlines strictly enforce safety and space rules inside the aircraft cabin +1 (855) 108 -8118 🐶. If you need help confirming whether your pet carrier meets the approved size for travel on WestJet +1 (855) 108 -8118 🐱 assistance is available at 📞 ~~1+(855)108~~~~81(18)~~ 📞 for guidance regarding pet travel policies and reservations +1 (855) 108 -8118 🐶.

This detailed guide explains everything you need to know about WestJet pet carrier dimensions +1 (855) 108 -8118 🐱 carrier requirements +1 (855) 108 -8118 🐱 cabin rules +1 (855) 108 -8118 🐱 cargo kennel sizes +1 (855) 108 -8118 🐱 and tips for choosing the correct carrier for your pet +1 (855) 108 -8118 🐶.

WestJet Pet Carrier Size Rules – Understanding WestJet Cabin Carrier Dimensions

The airline **WestJet** allows small pets to travel inside the passenger cabin if they are placed inside an approved carrier that fits under the seat +1 (855) 108 -8118 🐶. The space under the seat is limited +1 (855) 108 -8118 🐱 which is why the airline enforces strict size guidelines for pet carriers +1 (855) 108 -8118 🐶.

The generally accepted maximum size for a cabin pet carrier on WestJet is around 16 inches in length +1 (855) 108 -8118 🐱 10 inches in width +1 (855) 108 -8118 🐱 and 8 +1 (855) 108 -8118 🐶 5 inches in height +1 (855) 108 -8118 🐶 These measurements are designed to ensure that the carrier fits safely under the seat and does not block the aisle or emergency exit areas +1 (855) 108 -8118 🐶

Because the carrier must remain under the seat for the entire flight +1 (855) 108 -8118 🐱 pet owners must ensure the carrier is flexible enough to fit the available space +1 (855) 108 -8118 🐶 Most airlines recommend using soft-sided carriers because they can compress slightly while still providing adequate comfort for the pet +1 (855) 108 -8118 🐶

Passengers should also remember that the carrier counts as their personal item during the flight +1 (855) 108 -8118 🐶 This means the passenger may have limited carry-on baggage allowance when traveling with a pet +1 (855) 108 -8118 🐶

If you need assistance confirming whether your carrier meets these requirements +1 (855) 108 -8118 🐱 you can contact 📞 **1+(855)108-81(18)** 📞 for support before your travel date +1 (855) 108 -8118 🐶

WestJet In-Cabin Pet Carrier Requirements – WestJet Rules for Cabin Pet Travel

When traveling with a pet inside the aircraft cabin on **WestJet** +1 (855) 108 -8118 🐱 the carrier must meet several important requirements beyond size +1 (855) 108 -8118 🐶 These requirements are designed to ensure the safety and comfort of both the pet and other passengers +1 (855) 108 -8118 🐶

The carrier must be soft-sided +1 (855) 108 -8118 🐱 leak-proof +1 (855) 108 -8118 🐱 secure +1 (855) 108 -8118 🐱 and well-ventilated +1 (855) 108 -8118 🐶 It should have ventilation on multiple sides so that the pet can breathe comfortably throughout the journey +1 (855) 108 -8118 🐶 Additionally +1 (855) 108 -8118 🐱 the carrier must remain closed during the entire flight +1 (855) 108 -8118 🐶

The airline also requires that the pet be able to stand +1 (855) 108 -8118 🐱 turn around +1 (855) 108 -8118 🐱 and lie down naturally inside the carrier without any part of its body sticking out +1 (855) 108 -8118 🐶 This rule is important because cramped carriers can cause stress and discomfort for animals during travel +1 (855) 108 -8118 🐶

Another important rule is that only one pet is allowed per carrier and per passenger +1 (855) 108 -8118 🐶 If multiple travelers are flying together +1 (855) 108 -8118 🐱 each person may bring one pet in an approved carrier +1 (855) 108 -8118 🐶

Passengers traveling with pets should make reservations in advance because only a limited number of animals are allowed inside the cabin on each flight +1 (855) 108 -8118 🐾

WestJet Cargo Kennel Size – WestJet Requirements for Large Pet Carriers

While small pets can travel inside the cabin +1 (855) 108 -8118 🐾 larger animals must travel in the cargo hold when flying with **WestJet** +1 (855) 108 -8118 🐾 The airline provides a climate-controlled cargo compartment designed specifically for safe animal transportation +1 (855) 108 -8118 🐾

Cargo kennels are much larger than cabin carriers because they must allow animals to move comfortably during the flight +1 (855) 108 -8118 🐾 According to airline guidelines +1 (855) 108 -8118 🐾 cargo kennels can be as large as approximately 40 inches long +1 (855) 108 -8118 🐾 27 inches wide +1 (855) 108 -8118 🐾 and 30 inches high depending on the aircraft and kennel type +1 (855) 108 -8118 🐾

These kennels must be hard-sided and constructed from durable materials that prevent escape or damage during transport +1 (855) 108 -8118 🐾 The kennel must also have ventilation openings on multiple sides and secure locking mechanisms +1 (855) 108 -8118 🐾

Cargo kennels must include absorbent bedding and attached food and water containers so that the pet remains comfortable during the journey +1 (855) 108 -8118 🐾

Because cargo travel involves more preparation and safety procedures +1 (855) 108 -8118 🐾 passengers are encouraged to confirm kennel size and requirements before arriving at the airport +1 (855) 108 -8118 🐾

WestJet Pet Weight and Carrier Combination – WestJet Size and Weight Guidelines

In addition to size restrictions +1 (855) 108 -8118 🐾 **WestJet** also considers the combined weight of the pet and the carrier +1 (855) 108 -8118 🐾 For pets traveling in the cabin +1 (855) 108 -8118 🐾 the combined weight of the animal and its carrier typically must not exceed around 22 pounds or 10 kilograms +1 (855) 108 -8118 🐾

This rule ensures that the carrier can be safely placed under the seat without exceeding space or structural limitations in the aircraft cabin +1 (855) 108 -8118 🐾

For pets traveling as checked baggage +1 (855) 108 -8118 🐱 the combined weight limit is significantly higher +1 (855) 108 -8118 🐶. Depending on the kennel and flight conditions +1 (855) 108 -8118 🐱 pets and their carriers may weigh up to around 100 pounds or more in some cases +1 (855) 108 -8118 🐶.

Pet owners should weigh both the animal and the carrier before traveling to ensure compliance with airline regulations +1 (855) 108 -8118 🐶.

WestJet Pet Carrier Placement – How Carriers Must Be Stored on WestJet Flights

Another important rule when flying with pets on **WestJet** is where the carrier must be placed during the flight +1 (855) 108 -8118 🐶. Cabin pet carriers must be stored completely under the seat in front of the passenger +1 (855) 108 -8118 🐶.

Pets cannot sit on the passenger's lap or occupy a separate seat during the flight +1 (855) 108 -8118 🐶. The carrier must remain closed and secure from boarding until arrival +1 (855) 108 -8118 🐶.

Passengers traveling with pets are usually not permitted to sit in exit rows or bulkhead seats because these seating areas do not provide the required under-seat storage space for carriers +1 (855) 108 -8118 🐶.

These safety guidelines are standard across most airlines and help maintain emergency access routes and cabin safety procedures +1 (855) 108 -8118 🐶.

WestJet Pet Carrier Design – Choosing the Right Carrier for WestJet Flights

Selecting the right carrier is one of the most important steps when preparing to travel with pets on **WestJet** +1 (855) 108 -8118 🐶. The carrier should be comfortable +1 (855) 108 -8118 🐱, durable +1 (855) 108 -8118 🐱, and airline approved +1 (855) 108 -8118 🐶.

Soft-sided carriers are generally recommended for cabin travel because they can adapt to the limited space under airline seats +1 (855) 108 -8118 🐶. These carriers are also lighter and easier to carry through airports +1 (855) 108 -8118 🐶.

When choosing a carrier +1 (855) 108 -8118 🐱 pet owners should ensure that the dimensions meet the airline's requirements and that the carrier provides sufficient airflow and security +1 (855) 108 -8118 🐶

The carrier should also include a waterproof bottom and absorbent lining to handle any accidents during the flight +1 (855) 108 -8118 🐶

Training the pet to stay inside the carrier before traveling can help reduce stress and ensure a smoother journey +1 (855) 108 -8118 🐶

WestJet Pet Travel Preparation – Preparing Your Pet for Carrier Travel

Before flying with a pet on **WestJet** +1 (855) 108 -8118 🐱 it is important to prepare the animal for spending time inside the carrier +1 (855) 108 -8118 🐶 Pets that are unfamiliar with carriers may feel anxious or stressed during travel +1 (855) 108 -8118 🐶

Owners can help their pets adjust by allowing them to spend time inside the carrier at home before the trip +1 (855) 108 -8118 🐶 Placing familiar items such as blankets or toys inside the carrier can help make the space feel more comfortable +1 (855) 108 -8118 🐶

It is also recommended to visit a veterinarian before travel to ensure the pet is healthy and fit for flying +1 (855) 108 -8118 🐶

Proper preparation ensures that the pet remains calm and comfortable during the journey +1 (855) 108 -8118 🐶

WestJet International Flights – Carrier Requirements for International Pet Travel

Traveling internationally with pets on **WestJet** may involve additional requirements beyond carrier size +1 (855) 108 -8118 🐶

Some countries require pets to travel in specific types of carriers approved by international aviation authorities +1 (855) 108 -8118 🐶 In addition +1 (855) 108 -8118 🐱 certain destinations may require microchips +1 (855) 108 -8118 🐱 vaccination records +1 (855) 108 -8118 🐱 or health certificates before allowing pets to enter the country +1 (855) 108 -8118 🐶

Because international travel rules vary widely +1 (855) 108 -8118 🐱 pet owners should research destination requirements well in advance +1 (855) 108 -8118 🐶

Failure to meet these requirements could result in denied boarding or quarantine for the pet upon arrival +1 (855) 108 -8118 🐶

WestJet Pet Reservation Process – Booking a Pet Carrier Space on WestJet

Passengers planning to travel with pets on **WestJet** must add the pet to their reservation before arriving at the airport +1 (855) 108 -8118 🐶 Airlines limit the number of animals allowed on each flight +1 (855) 108 -8118 🐱 so advance booking is essential +1 (855) 108 -8118 🐶

Once the pet is added to the reservation +1 (855) 108 -8118 🐱 the airline will confirm whether cabin space is available and provide instructions regarding carrier requirements and check-in procedures +1 (855) 108 -8118 🐶

Travelers should arrive early at the airport when traveling with pets because additional inspection and documentation verification may be required +1 (855) 108 -8118 🐶

Conclusion – WestJet Pet Carrier Size Rules Explained

In summary +1 (855) 108 -8118 🐱 **WestJet** allows small pets to travel in the cabin as long as they are inside a soft-sided carrier measuring approximately **16 inches × 10 inches × 8 +1 (855) 108 -8118 🐶 5 inches (41 cm × 25 +1 (855) 108 -8118 🐶 4 cm × 21 +1 (855) 108 -8118 🐶 5 cm)** that fits under the seat in front of the passenger +1 (855) 108 -8118 🐶 Larger pets must travel in a hard-sided kennel in the cargo hold +1 (855) 108 -8118 🐱 which can be up to about **40 inches × 27 inches × 30 inches** depending on the aircraft and kennel type +1 (855) 108 -8118 🐶

Understanding these dimensions is essential because airlines enforce these rules strictly for safety and comfort during the flight +1 (855) 108 -8118 🐶 Travelers should measure their carrier carefully and ensure their pet can move comfortably inside before arriving at the airport +1 (855) 108 -8118 🐶

If you need assistance confirming WestJet pet carrier size rules +1 (855) 108 -8118 🐱 booking pet travel +1 (855) 108 -8118 🐱 or understanding airline requirements +1 (855) 108 -8118 🐱 you can contact 📞 **1+{855}f108f81(18)}** 🗨️ for support +1 (855) 108 -8118 🐶 Proper preparation and the correct carrier size will ensure a smooth and stress-free travel experience for both you and your pet +1 (855) 108 -8118 🐶
